SOUTHERN RAILWAY NEW TRADE MARK

The Southern Railway Company has adopted a new and attractive trade mark as shown above. The design "SR" is symbolical of the name of the road and the wording "The Southern Serves the South" is suggestive of the many lines operated by the Southern Railway throughout all of the states south of the Ohio and Potomac and east of the Mississippi rivers.

There is hardly a city or town of importance throughout the entire South that is not connected with the balance of the South, either directly by the Southern Railway's own trains or by sleeping car lines over other roads in connection with Southern Railway, via some adjacent junction point. On this account the title "The Southern Serves the South" was adopted as being appropriate.

Southern Railway spends about \$200,000.00 a year in advertising and a great deal of this advertising is done in the Northern, Eastern and Western sections of the country so as to attract people into the South, and on all of this advertising matter this trade mark will appear hereafter.
